

# My Camp Will Look a Little Different This Summer

## A New Building is Being Built

This summer, camp is building a new dorm. Builders will work on the old Hemlock building. I will not go near the construction area.

## Construction Noise

Sometimes during the day i will hear noises like beeping, loud machines, or tools. This is okay, the builders are doing their job.

If the noise bothers me, I can:

- Bring or ask for headphones
- Take a break
- Go to a quiet space with a counselor

## Getting Ready

Before Camp, I will see pictures of where I can sleep and a map of camp. These will help me know what to expect.

## Where Will I Sleep?

I will sleep in Cy Lodge, a Platform Tent, or the Yurt. They are all clean, cozy, and ready for all campers. Staff will help me find my bed and get comfortable.

## My Group

My group will look the same! I will still have a counselor who care about me. I will still make friends and have fun!

## Changes are Okay

Camp might look different, and that's okay. If I feel unsure, I can ask a counselor for help. They will help me feel safe and supported.
